

Built for the long run.

Prime power for mining, aggregates and heavy industrial operations.

Power where access is difficult

EnduraGen supports unattended equipment and distributed sites where utility service is unavailable or unreliable. Extended maintenance intervals help reduce routine field visits without sacrificing dependable operation.

6,000
HOUR MAINTENANCE INTERVAL

40,000+
HOUR ENGINE LIFE

CRITICAL APPLICATIONS

● MINES & QUARRIES

Dewatering, ventilation controls and communications

● MATERIAL HANDLING

Crushers, conveyors, screens and control stations

● MONITORING SYSTEMS

Environmental sensors, telemetry and surveillance

● REMOTE FACILITIES

Field offices, maintenance sites and isolated assets

NG / LPG
FUEL FLEXIBILITY

WEATHERPROOF DESIGN

CONTINUOUS PRIME POWER OR
INTERMITTENT OPERATION

ENDURAGEN™

**Fewer field visits. Longer life.
Lower operating costs.**
